PROFESSIONAL SUMMARY

Goal-driven **Full-Stack Developer** and MCA candidate with practical industry internship experience building robust, production-ready web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**, **PostgreSQL**, and **Java**. Certified in **MERN Full-Stack Development (FSD)** and **Artificial Intelligence** with proven competence in three-tier modular architectures, Role-Based Access Control (RBAC), and RESTful API engineering across NoSQL and relational databases. Adept at agile collaboration, relational data workflows, and automated cloud deployments on Render, Netlify, and MongoDB Atlas.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Java, Python, SQL, HTML5, CSS3
Frontend:	React.js, Vite, Tailwind CSS, Bootstrap, Component Architecture, Responsive Web Design
Backend & APIs:	Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), Multer
Databases & Cloud:	MongoDB, MongoDB Atlas (Mongoose), PostgreSQL, MySQL, Render, Netlify
Developer Tools:	Git, GitHub, Postman, VS Code, Razorpay Payment Gateway API, npm

PROFESSIONAL EXPERIENCE (INTERNSHIP)

Novitech R&D Pvt. Ltd. — **MERN Full-Stack Development Trainee** July 2026 – August 2026

Key Deliverable: ClientFlow — Enterprise Client Visit & Onboarding Management Platform (*React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, Render*)

Live Application: clientflow-app-bgmn.onrender.com • **GitHub:** [ShadowMonarch8855/Onboarding-Client-visit](https://github.com/ShadowMonarch8855/Onboarding-Client-visit)

- **Architecture & Development:** Architected and deployed an end-to-end, three-tier web application to automate executive client visits, stakeholder agendas, milestone tracking, and document delivery.
- **Dynamic Onboarding Blueprints:** Engineered 3 industry-standard onboarding templates (Client Onsite Visits, SaaS Enterprise, and Agency Marketing) with multi-stage approval workflows and task checklists.
- **Security & Authentication:** Implemented strict Role-Based Access Control (RBAC) across Admin, Team Member, and Client personas using JSON Web Tokens (JWT) and Bcrypt encryption to safeguard confidential workflows.
- **RESTful API & Data Modeling:** Built 20+ modular REST API endpoints in Express.js and structured MongoDB schemas for real-time tracking, automated invoicing, and live Render/Atlas cloud deployment.

FEATURED PROJECTS

Nerchuko LMS — Role-Based Learning Management System | github.com/ShadowMonarch8855/LMS Full-Stack Project
React.js, Node.js, Express.js, PostgreSQL, SQL, RESTful APIs, Role-Based Access Control (RBAC)

- Architected a full-stack Learning Management System featuring **Role-Based Access Control (RBAC)** supporting distinct Student, Lecturer, and Admin workflows.
- Engineered a normalized **PostgreSQL** relational database schema modeling users, courses, video lessons, quiz assessments, enrollments, and completion metrics.
- Built modular **Express.js REST APIs** handling user authentication, course lifecycle management, automated quiz scoring, and certificate generation upon completion.
- Designed a responsive **React.js** single-page frontend with dynamic course catalogs, lesson video players, and instructor management dashboards.

VastraKart — Fashion E-Commerce Platform | demoselling.netlify.app Full-Stack Project
HTML5, CSS3, JavaScript (ES6+), Node.js, Express.js, Razorpay API, Netlify

- Engineered a responsive fashion e-commerce storefront featuring dynamic apparel catalogs, search, and category filtering.
- Integrated **Razorpay Payment Gateway API** to process real-time transactions with secure callback verifications and instant order confirmations.
- Structured modular server-side route handlers to securely handle customer checkout workflows, payment status callbacks, and inventory data.

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026
VRS & YRN College of Engineering and Technologies, Chirala

Core Track: Advanced Software Engineering, Database Management Systems (DBMS), Data Structures & Algorithms (DSA).

Bachelor of Science (B.Sc.) in Computer Science 2021 – 2024
Chaithanya Bharathi Degree College, Chirala

Core Track: Computer Science Principles, Object-Oriented Programming (Java), Operating Systems, Computer Networks.

CERTIFICATIONS & ACHIEVEMENTS

- **MERN Full-Stack Development (FSD) Certification:** Novitech R&D Pvt. Ltd. — In-depth industry training in React.js, Node.js, Express.js, MongoDB, RESTful APIs, and full-stack integration.
- **Artificial Intelligence & Data Analytics Certification:** Novitech R&D Pvt. Ltd. — Coursework in data modeling, exploratory analytics, and predictive workflows.
